Live Course dates	Description	Venue	Website
28.07.2021 & 07.10.2021	<b>Lower GI polypectomy skills:</b> This is one-day intensive practical course using the porcine model of endoscopic polypectomy. The course provides an overview and practical experience of how to perform safe and effective polypectomy. Hands on training will include practical polypectomy, tattooing, endoclip placement and endoscopic mucosal resection.	St Marks Hospital Harrow – London, UK	<a href="http://www.jets.thejag.org.uk">www.jets.thejag.org.uk</a>
22.09.2021 & 24.11.2021	<b>Upskilling in Colonoscopy:</b> Many established and independent colonoscopists now recognize the need to update their skills periodically. More robust departmental audits of performance data and the imminent move towards endoscopic revalidation have been the catalyst for the development of a colonoscopy upskilling course.	St Marks Hospital Harrow – London, UK	<a href="http://www.jets.thejag.org.uk">www.jets.thejag.org.uk</a>
20.10.2021- 22.10.2021	<b>Basic skills in colonoscopy:</b> This is a 3-day course for Higher Trainees wishing to gain/ improve their skills in Colonoscopy. This is an intensive, interactive, practical course covering the theoretical basis of performing a safe colonoscopy and safe and effective peri-endoscopy management. The course	St Marks Hospital Harrow – London, UK	<a href="http://www.jets.thejag.org.uk">www.jets.thejag.org.uk</a>

	includes a series of small group and one-to-one teaching sessions, videos, hands-on model work and supervised endoscopy. Each trainee will undertake a number of colonoscopies under the supervision of expert trainers, which will be transmitted to other delegates using the latest A/V resources, including magnetic 3D imager to facilitate training.		
10.11.2021 & 15.12.2021	<b>Training the Colonoscopy Trainers (TCT):</b> This course is interactive and relies on delegate participation. There is a day of classroom/ seminar and model-based teaching aimed at developing a training framework to apply to endoscopic training. Seminars, model work and group teaching are used. Day 2 is used to apply the knowledge from day 1 teaching in a clinical environment.	St Marks Hospital Harrow – London, UK	<a href="http://www.jets.thejag.org.uk">www.jets.thejag.org.uk</a>
21.07.2021	<b>Gastrointestinal Study Day for HCA's:</b> This one-day study day is anticipated to increase the knowledge and understanding of healthcare assistants caring for people with gastrointestinal conditions.
